Industry Analysis Details

From the Perspective of Investment and Wages:

In 2023, the growth rate of fixed asset investment in China's professional and technical services industry was 8.5%, significantly higher than the overall fixed asset investment growth for the year. This growth was mainly driven by the demand for technological upgrades and policy support, such as increased corporate investment in advanced equipment and R&D facilities. Regionally, the eastern region remains the main investment driver, but the central and western regions are growing faster. In 2024, the average salary for professional and technical personnel in enterprises above a designated size reached 148,046 yuan, a nominal year-on-year increase of 5.05%. This increase reflects both the strong demand for high-end talent in the industry and the pressure of rising labor costs. Structurally, wage levels are higher in first-tier cities and emerging industry clusters, attracting high-end talent, but some regions still face the problem of brain drain.

From the Perspective of Number of Enterprises and Market Turnover:

China's "14th Five-Year Plan" clearly identifies the technology services industry as a strategic emerging industry for key cultivation. Policies such as tax incentives and R&D subsidies are used to reduce corporate operating costs, and local governments attract enterprises by building science and technology parks and industrial clusters. In 2023, the number of surveyed enterprises in national scientific research and technical services was 31,387, an increase of 7.11% year-on-year. In 2024, the transaction value of technology contracts in China reached 6.8 trillion yuan, a year-on-year increase of 11.2%, showing a steady growth trend and achieving the 5 trillion yuan target set in the "14th Five-Year Plan Special Plan for the Technology Factor Market" ahead of schedule.

Application Date	Name	Registration No.	Category	Validity Period	Status
2020-11-20	Graphic	51433923	Class 35 Advertising and Sales	2021-07-21 to 2031-07-20	Trademark Registered
2019-06-19	Graphic	38979988	Class 11 Lighting and Air Conditioning	2020-04-28 to 2030-04-27	Trademark Registered
2018-12-14	Graphic	35309659A	Class 9 Scientific Instruments	2019-09-21 to 2029-09-20	Trademark Registered

Patents

Application Date	Title	Application No.	Publication No.	Publication Date	Inventor	Status
2023-10-01	A Hydrogen Production Device with Gas Monitoring Function	CN202322659395.3	CN221297085U	2024-07-09	Gu Zhiyuan (谷志远)	Granted
2023-08-31	A Photovoltaic Power Station Energy Storage Device	CN202322360614.8	CN220896637U	2024-05-03	Yang Zhenggang (杨正刚), Wu Zheyi (吴喆熠)	Granted
2023-04-06	A Hydrogen Production Device Using Zn-EDTA as a Control Switch	CN202320740886.8	CN219991153U	2023-11-10	Qian Jiangjun (钱江俊), Huang Kaiyu (黄开宇), Li Junmiao (李俊苗), Ding Moran (丁茉然), Xu Tiantian (徐田甜), Cheng Shun (程顺), Zheng Yawen (郑雅文), Chen Chunyuan (陈春园)	Granted

Qualification Certificates

Issue Date	Valid Until	Certificate Name	Certificate No.	Certification Body	Status
2024-04-07	2024-04-07 to 2030-04-06	Energy and Power Qualification License	4-2-00133-2024	Jiangsu Energy Regulatory Office (江苏能源监管办)	Normal
